V J Technology

**is proud to be and Associate Member
of the Construction Fixings Association**

During the year

2025

We undertake to provide:

- Products from CFA Members made to registered Quality Assurance schemes

- Products with ETA – European Technical Approvals – for safety critical uses

- A wide range of products to satisfy all applications

- Technical support from trained staff

- Competent Installer Training

- On-site testing service

- High service levels

As an Associate Member of the CFA, we have access to the wealth of technical data and support directly from our suppliers and via the Association.

This enables us to contribute to the stated objective of the Association.

Ensuring best fixings practice
